

# Monster Eyeballs

Halloween snacks are more fun when they stare back! These nutritious peeps are simple enough for kids to make, featuring carrots, olives and cream cheese for a nutritious nosh. Serve them at a party, and everyone will want to know what that plate of eyeballs is made out of.

## What You Need:

- 4 carrots, peeled, washed and patted dry
- 1 cup of pitted olives
- Cream cheese
- Knife

## What You Do:

1. Cut the carrots into flat slices about half an inch thick so all of the carrot pieces are about the same size.
2. Lay the carrot slices flat and place a tiny blob of cream cheese on the center of each slice. This will be used to hold the olive in place.
3. Place half of an olive on top of the cream cheese for the pupil. Serve them to anyone you want to scare!
