A goblin, vampire, witch and zombie get together for some monster fun. They are having a seance. Each monster brings an item for the seance: a candle, tarot cards, sage, and a summoning spell. But they also each bring a refreshment: spiders, blood, chicken feet, and chocolate. Can you figure out which monster brought which item for the seance and what refreshment they brought as well?

1. Even though you might think so, the vampire did not bring blood as a refreshment, but she did bring a candle.
2. The monster who brought the chicken feet, brought the summoning spell.
3. The witch did not bring blood nor the sage.
4. The goblin brought the spiders but did not bring the spell.
5. The monster who brought the sage did not bring the blood.
