BILL’S PATH

Can you put these steps in order to show how a bill becomes a law?

1. Senators and Representatives propose the bill.
2. Next, House and Senate Committees consider the bill.
3. Committees vote on the bill.
4. The bill is debated in the House and Senate.
5. Finally, the president signs the bill into law—or not!
6. A last vote is taken in the House and Senate.
7. The bill travels from the House and Senate to a Conference Committee.
