Bug Safari Game!

You will need:
- 20 plastic bugs in red, blue, green, yellow, orange and purple placed in a pile
- stack of number cards face down and shuffled
- number = color chart

If you do not have any bugs to put back, you just miss a turn!

1. Choose two cards from the top of the stack and add the numbers.
2. Take a bug that matches the number/color from the pile.
3. If there are no more bugs in that color you miss a turn.
4. If your number is greater than 10 or less than 5, you must put one bug back in the pile.
5. Play until all of the bugs are gone.
6. Count the bugs to see who collected the most!
